

The logo features the letters 'FTP' in a bold, dark blue, sans-serif font. The letters are closely spaced and have a slight shadow effect. The background is a light cream color with a subtle, larger-scale pattern of the same 'FTP' letters in a lighter shade. The entire logo is centered within a white circular area that is part of a larger graphic design with blue and pink curved borders.

FTP COMMANDS

- **USER [username]**: Used to send the user identification to the server.
- **PASS [password]**: Used to send the user password to the server.
- **LIST**: Used to ask the server to send back a list of all the files in the current folder
- **RETR [filename]**: Used to retrieve a file.
- **STOR [filename]**: Used to store a file into the current directory of the remote host.

FTP REPLIES

- **331** Username OK, password required
- **125** Data connection already open; transfer starting
- **425** Can't open data connection
- **452** Error writing file

TFTP

- Trivial File Transfer Protocol
- Uses UDP instead of TCP
- Port number: 69
- No authentication
- RFC 1350

The background features a large, light cream-colored circle on the left and a large, light pink circle on the right. These two circles overlap in the center. The area where they overlap is filled with a series of thin, white, concentric curved lines that radiate from the top right towards the center. The top and bottom edges of the image are defined by a dark blue shape that fills the remaining space.
